

SMART EV CHARGING: DEALERSHIPS

**New Car Sales by
2030**

MEET YOUR DEALERSHIP COMPLIANCE

As the number of EV cars sold continues to climb, knowledgeable sales and service staffs need to be prepared to handle more EVs across the lot. Vehicle battery sizes, acceptance rates and charging requirements are changing fast so it's important to have an EV hardware and software partner that can move one step faster. As more drivers "go electric", it is important to meet consumer demands and expectations.

ZEF Energy brings dealership sales and services teams turnkey EV charging solutions that are customer-centric, economical, and easy to manage. We understand all OEM requirements and can provide you with a solution that meets present-day standards while future proofing your EV charging infrastructure.

BENEFITS OF EV CHARGING:

- SELL MORE VEHICLES
- MEET OEM REQUIREMENTS
- FUTURE PROOF YOUR FACILITY
- 'BUY AMERICA' COMPLIANT
- CUSTOM BRANDING AVAILABLE

ZEF ENERGY CUSTOMER QUOTE

"ZEF Energy allowed our business to meet today's requirements for multiple OEMs while also setting our properties up to easily add more chargers in two years." - AUTOGROUP FACILITIES MANAGER

Solutions

PRODUCTS FOR EVERY REQUIREMENT

No matter which OEM standards you must adhere to ZEF Energy has a product for you. Our Level 2 chargers come wall mounted or on a pedestal and work great for service bay needs. Our DC Fast Chargers come in sizes from 50 kW to 600 kW and can be mounted as a single or dual satellite or a movable option.

Level 2 Chargers:

7.7 kW | 11.5 kW | 15.4 kW | 19.2 kW

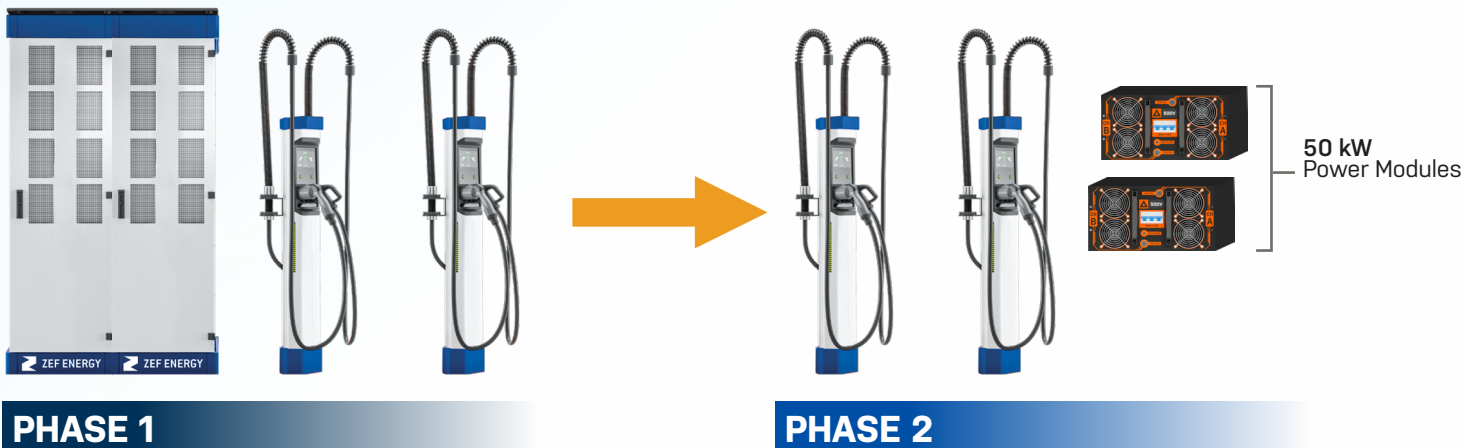

DC Fast Chargers:

50 kW | 100 kW | 150 kW | 200 kW | 250 kW | 300 kW | 350 kW | 400 kW
450 kW | 500 kW | 550 kW | 600 kW

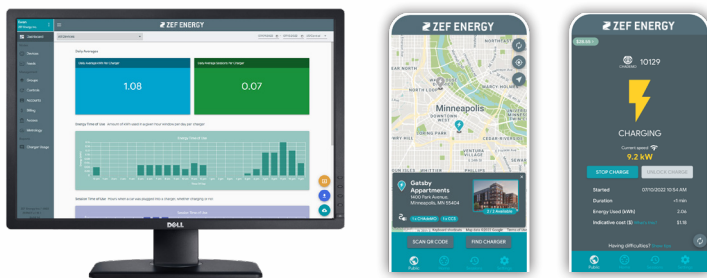

REQUIREMENTS CHANGE - PICK A CHARGER WITH FLEXIBILITY

In the rapidly changing world of EV cars and charging, it is important to choose a solution that can grow with your needs. Upfront investment can be challenging, so choose a hardware configuration that allows you to add more plugs and more power with the least investment. ZEF Energy products allow you to plan in phases so that as requirements grow so does your charging infrastructure.

ZEFNET™ - SOFTWARE DONE SIMPLY

Our highly customizable, yet simple to use software ZEFNET™ allows users to manage all their chargers in one place. ZEF Energy's onboarding team will assist you in setting up billing profiles, driver grouping and power management solutions. We understand the needs of drivers and EV charger owners so we developed a driver app that integrates with all other EV charging networks.

ABOUT ZEF ENERGY

ZEF Energy offers an extensive line of EV car chargers backed by the most intelligent, fully-integrated software in the industry.

Our "Buy America" compliant hardware is ruggedized and tested in the harshest environments and all products include ZEF Energy's 5-Year Advantage™, the industry's best warranty, support and software package.

ZEF Energy's Partner Program provides a nationwide network of preferred installers and resellers that will provide turn-key project capabilities.
