

# SMART EV CHARGING: MULTI-UNIT HOUSING

ZEF ENERGY

Where Drivers Charge

**37%**

Households reside in  
MUH buildings

**15%**

MUH residents going to  
EV in less than 2 years

## RISE IN MULTI-UNIT LIVING

As the number of residents in multi-unit housing climbs to a record number, property managers, building owners and HOAs will see an increasingly competitive market. EV charging has become a must-have amenity to attract and retain residents. As more drivers "go electric", it is important to meet consumer demands and expectations.

ZEF Energy brings building managers and residents turnkey EV charging solutions that are customer-centric, economical, and easy to manage.

## BENEFITS OF EV CHARGING:

- Support Resident Demand
- Attract New Residents
- Increase property value
- Meet Building compliance

### ZEF ENERGY CUSTOMER QUOTE

*"I loved the simplicity of ZEF Energy's power sharing ability that allows us to add more charging stations per building than we otherwise would have been able to add." - BUILDING OWNER*

### ZEF ENERGY 5-YEAR ADVANTAGE™

- ▶ 5-Year Product Warranty
- ▶ 5-Year Service Level Warranty
- ▶ 5-Year Cellular Connectivity
- ▶ 5-Year **ZEFNET™** Software License
- ▶ 5-Year US-Based 24/7/365 Tech Support

# Solutions

## ZEF ENERGY CAN RETROFIT YOUR BUILDING

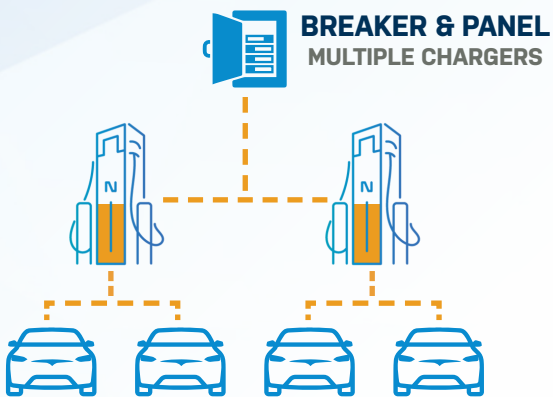

Most buildings do not have electric capacity to add EV charging. ZEF Energy smart chargers allow you to add more chargers per piece of infrastructure. This allows for more residents to plug in and charge.

In turn, your building avoids expensive electrical service and helps minimize the costs of new electrical infrastructure. Our fully integrated software *ZEFNET™* works with our hardware to make onboarding simple for any building management team and customize the chargers behavior to their preferences.

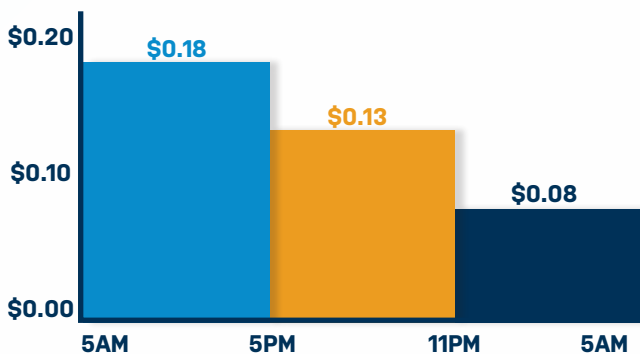

## POWER SHARING:

Maximize the amount of plugs at a location. Don't let the existing electrical constraints prohibit charging.

## FLEXIBLE RATES & DRIVER FEES

Customize rates and the time of day/year charging to align with your utility's least cost rate structure.

## DYNAMIC CHARGING:

Dynamic charging allows you to share your current electrical infrastructure with ZEF Energy chargers and your building's higher priority equipment.

## ABOUT ZEF ENERGY

ZEF Energy offers an extensive line of electric vehicle (EV) chargers backed by the most intelligent, fully-integrated software in the industry. Our "Buy America" compliant hardware is ruggedized and tested in the harshest environments while our *ZEFNET™* software provides the ability for power management, driver grouping and more. All products include ZEF Energy's *5-Year Advantage™*, the industry's best warranty, support and software package.
