

SMART EV CHARGING FOR: Hospitality

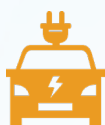

The New Standard in Modern Amenities

There are more than two (2) million EVs on US roads today. This will increase 10x by 2030. Travelers will look for accommodations that make vehicle charging convenient and easy, reducing EV road trip travel times and range anxiety.

By embracing the future of sustainable transportation, you not only meet the demands of the growing EV market but also contribute to a greener future. Elevate your guest experience and differentiate your destination with marketable and environmentally-friendly amenities.

Benefits of EV Charging as an Amenity:

Attract EV Drivers

Attract environmentally conscious EV drivers, expand your customer base and cater to the growing trend of sustainable travel.

Enhance Guest Experience

Provide a hassle-free solution for electric vehicle owners, fostering a positive and convenient experience.

Increased Guest Satisfaction

Create a positive impression, favorable reviews and repeat business with increased overall guest satisfaction and retention.

Meet Sustainability Goals

Demonstrate a commitment to carbon reduction strategies and environmentally-minded business decisions.

ZEF ENERGY CUSTOMER QUOTE

"EV charging isn't just a perk; it's become essential in hospitality. With ZEF Energy's tech, we're not just adding stations; we're creating a haven for eco-conscious travellers, boosting our appeal and making a sustainable difference, one charge at a time."

- Richard S., Hotel Owner
